

AUTODESK BIM COLLABORATE

Autodesk BIM Collaborate Bolt On

Deliverable

Autodesk Collaborate Bolt On is a service designed to further augment the Autodesk Docs deployment. It provides an efficient and effective implementation to enable you to benefit from access to this industry standard cloud-based collaboration platform. Besides the provision of BIM Collaborate or BIM Collaborate Pro, our industry and technology specialists will deliver:

- Administrative Best Practice
- Three Individual Quick Start Sessions
 - 1 - 2 Hours Administration Overview
 - 1 - 2 Hours Clash Detection User Overview
 - 2 - 3 Hours Revit Worksharing User Overview

Requires an Autodesk Docs Configuration, either pre-existing or via our Autodesk Docs Base Deployment Service.

Administration Overview **1-2 Hours**

This short training session includes the following topics:

- Uploading Files through Web Browser Collaboration Overview
- Project Settings for Design Collaboration
- Project Settings for Model Coordination
- Team Setup
- Coordination Space Setup
